

Here begynneth the shorte Accedence.

How many partes of reason be ther: viij. whiche
 viij: nowne. pnowne. vbe. aduerbe. ptyciple. cō-
 iunction. pposityon. & interiectyon. How many
 edlyned. & how many be vnderlyned. iij. be dedlyned
 .iij. be vnderlyned. whiche four: ben dedlyned: now-
 pnowne. verbe and particyple. whiche. iij. be vnder-
 lyed: aduerbe. cōiunctyō. pposityō and interiectyon.
 How many be dedlyned with case. & how many withou-
 t. iij. wyth case. & on wythout case. whiche. iij. wyth-
 out. nowne pnowne & particyple. whiche one wythout
 is: verbe only. How know ye a nowne: for all that y
 y felesee here or vnderstonde that bereth the name of
 ynyng is a nowne How many thynges lōg to a nowne
 whiche. vi: qualite cōparisō gener nōbie fygyre & case
 How many maner of nownes be ther: two. whiche two
 own substantiue & a nown adiectiue. How know ye a
 own substantiue: for he ma stōde by hym selfe without
 at helpe of an other worde & is declined with on article
 hic magr. or with. n. at the moost as hic & he sacerdos
 How know ye a nowne adiectyfe: for he may not stonde
 without y helpe of a nother worde & is dedlyned in laten
 ith. iij. articles as h & h & h felix. or with. iij. diuerse endi-
 s. as bon? a. ū. How many degrees of cōparisō be ther
 whiche. iij: the posityfe. the cōpatyfe. and the superlatyfe
 gre. How know ye y posityfe degree: for he is groude of
 fother degrees of cōparisō as vyle. The cōparatyfe de-
 gre for he passeth y posityfe degree with this aduerbe ma-
 gis The superlatyfe degree for he passeth the posityfe with
 this aduerbe maxime as moost vyle or vylest. How many
 gender ben there: viij. whiche. viij: the masc. the yfemini-
 ne. the comon of n. & comon of all. &

ned with hic. The femingne. for he is dedlyned with
The neutre gener. for he is declined with this article
as hoc scānū. The comō of. n. for he is dedlyned with
artydes as hic & hec sacerdos The comō of. in. for he
dlyned with hic & hec & hoc. as hic & hec & hoc felix. The
bye gener for he is dedlyned with hic & hec & a vel pū
comung bytwene as hic vel hec dies. The epycene g
for vndor one voys ād vnder one artyde he betoke
both the male & the female. as passer for a sparow. I
many nōbles ben there: ij. whiche. ij. a synguler & a
rell. How know ye the siguler nōble: for he is speker
of one tynge as one may. The plurell nombre it spe
of moo thynges thane of one as men How many ca
there: vi. whiche. vi. the noi atyf. the genityf. the da
accusatyf. the vocatyf. & the ablatyf case.: How kno
the noi atyf case. for he cometh before the verbe. & ai
reth to hym how & what. The genityfe case for of al
nown substatyue nown partatpue distributue or
tyme degree is spgne of the geityf case. The datyf ca
to before a nown or a pronown is spgne of the datyf
The accusatyf case. for he cometh after the vbe.: Th
catyf case for he calleth or speket to as o petre. The
tyf case by my signes whiche be to signes i with the
or for than or by after a cōparatyf degree is a signe
ablatyf case. How many declēsons bē there: v. whi
the fyrst. the secōde. the thyrde. the fourth. & the fyft.
know ye the fyrst for the genityf case singuler endeth
the datyf also. as ntō hec musa gtō hui? muse dtō hu
se. The secōde for the geityf case singuler ii. & the da
as ntō hic dñs. gtō hui? dñi. dtō huic dñs. The. in. for
tyf case singuler endeth in is & the datyf case ii. as n

he genityf singuler endeth in us & the datyf case in ui
 iec man? gto hui? man? dco huic manui. The fyfth for
 genityf case singuler endeth in ei & the datyf case also
 utō her species gto hui? speciei. dco huic speciei

Now know ye a pronoun: for he is set a pprie now
 ne & somtyme receyueth the certeyn plones. what
 nges longe to a pnown. vi: whiche. vi: qualite gener
 ie fygure plone & case: How many pnownes be the
 v. whiche. xv: Ego tu sui ille ipse iste hic & is me? tuus
 s noster vester nostras & vestrās. How many prima
 es & how many dyuiatyues: viij. primatyues &. viij.
 uatyues. whiche be the. viij. primatyues Ego tu sui
 ipse iste hic & is. whiche ben the. viij. dyuiatyues Me
 uis suus noster vester nās & vās. How many ha
 he vocatyf case & how many wāte. Tu meus noster
 rās haue the vocatyf case & all other wāte. How ma
 plones be there: iij. whiche. iij: the fyist the seconde & y
 ide. The fyist speketh of hymself as I & we.: The secō
 peketh as y or ye. The. iij: for euery noun pronoun &
 ctyrple be. iij. plones outake Ego tu nos & vos with
 obliques & euery vocatyf case. How many declēsons
 inoun be there: iij. whiche. iij: y fyist. y secōde. y thyr
 y fourth How know ye the fyist: for y genityf case sin
 er endeth in i or in is. & the datyue case in i. as ntō ego
 mei vel mis dco michi. How many pronownes be of
 s declēson: iij. whiche. iij: ego tu sui. The secōde for the
 uityf case singuler endeth in ius or in ius. & the datyf i i
 nc. as illius hui? illi huic. How many pnownes be of
 s declēson: v. whiche. v: ille ipe iste hic & is. & viij: now
 & with theyr cōpositēs vn? ull? vter null? tot? alter sol?
 ōs. How know ye y thyrde declēson for y geityf case

meimee. dō mrs mee. How many pnownes be of this
declēson: v: wiche: v: me? tu? su? rē & v. How know ye y
iii: for y genityf case endeth in atis. & y datyf in ati. as no
strastis ti. How many pnownes be of this declēson: n.

Qw know ye a vbe: for (whiche: n: nēas & viās
he is dedyned with mode tens without case or arty
cle & betokenet to do or to suffre o to be. How many thyn
ges lōge to a vbe: vii: wiche: vii: mode coniugation gener
nōble figure tēs & yson. How many modes be ther: v. wi
che: v: y indicatyf: y impatyf: y optatyf: y cōiūctyf: & y infin
ityf mode. How know ye y indicatyf mode by y way of as
kyng or teilig The ipatyf mode for he byddeth or cōmaū
deth The optatyf mode for he willeth or desyreth The cō
iūctyf mode ioyneth mode to mode & tēs to tēs. The ifi
nityf mode for to byfore a vbe is tokē of y infinityf mode
Or whā n: vbes cometh togyt without a relatyf or a iū
ctiō coniuge bytwene y later of thē shal be of y ifinityf mo
de How many coniugatiōs bē there: iiii. wiche: iiii: y fyrst:
the secōde: y thyrde. y fourth: How know ye y fyrst for he
hath a lōge before y re in y ifinityf mode as amare The
secōde for he hath e lōge before y re in y ifinityf mode as
docere The thyrde for it hath e shorte byfore the re in y in
finityf mode as legere The fourth for it hath i longe by
fore the re in the ifinityf mode as audire: How many ge
ner of verbe be there: v: wiche: v: actyue: passyue neu
tre: deponent: & common. How know ye a verbe actyue
for he endeth in o: & maye take r vpon . & make of him
a passyue A vbe passyue endeth in e & maye do a waye
ther: & tome a gape to his actyue: A verbe neutre for he e
deth in o maye not take r vpon . & make of hym a passy
ue. How knowe ye a verbe deponēt: for he hath that let

in participles as loquēs locut⁹ locuturus. How know
ye a verbe comon for he endeth in r. & hath the sygnifica
tion of y actyue & y passyue both & .iij. participles as cri
minās criminat⁹ criminatur⁹ vel criminand⁹. How ma
ny nōbie be there: ij. whiche. ij. a singuler & plurell. whi
che in y singuler nōbie all y cometh a fore & tple. whiche
in the plurell nōbie all y cometh after & tple. How many
tens be there: v. whiche. v. present tens. pteryt imperf
tēs. pteryt pfectēs. pteryt plupfectēs. & future tēs. How
know ye y p̄sent tēs for he spekeheth of the tyme y is now.
as amo I loue. The pteryt imperfctens it spekeheth of y ty
me y is past without ony sygne haue or had. The pteryt
pfectēs it spekeheth of y tyme y is past with this signe haue
The pteryt plupfectēs spekeheth of tyme past with this si
gne had. The future tens it spekeheth of tyme y is to come
with is signe shal. How many p̄sons be there: iij. whiche
ij: y fyrst as amo. y secōde as amas. y thyrde as amat.

Now know ye an aduerbe: for he is set next y verbe
for to declare & fulfyl y significatiō of the vbe. How
many thynges lōge to aduerbe: iij. whiche. iij. significatiō
cōparatyō & fygyre. How many degrees of cōparyson of
aduerbe is there: iij. whiche. iij. y posityue as docte. the cō
paratyue as doctius. the suplatyue degree as doctissime

Now know ye a partyciple: for he taketh parte of a
noun parte of a vbe pte of both. what taketh he of
a noun gener & case. what of a vbe tyme & significatiō
what of both nōbie & fygyre. How many tēs of p̄ticipple
is there: iij. whiche. iij. the p̄sēt tēs. y pteryt tēs & the futu
re tēs How know ye a p̄ticipple of pteryt tēs for he his en
glyssh endeth in o t or n as red taught & blen & his latyn
shall ende in tusus How know ye the future tens of p̄ti

be & his later englische begynneth with to & be both & his
fyrst latyn shal ende in rus & his late in dus. Of whome
is ypticyple of y present tēs formyd of the fyrst psonē singu
ler nōbre pteritū perfectēs of the indicatīf mode by y chaū
gung of bam into an. n. an. s. Of whome is ypticyple of
pteryt tēs formyd of the later supyne by indicatīf mode
by chaūgung of a bā into an. n. & s. Of whome is ypticy
ple of y pterit tēs formid of the later supine by y puttyng
to an. s. Of whome is future tēs of ptyciple formyd whe
ther in rus or in dus. In rus fro later supyne by tlyng to
a rus. In dus fro y genityf case synguler nōbre pterit tēs
of his ptyciple by chaūgung of his in dus

Qw know ye cōiūctyō: for he Jopned other ptes of
reason to gyder in ordie. How many maner of cōiūctyon
ben ther: v. whiche. v: copulatyf. disūctyf. explatyf. cau
sale. & ratyonale. whiche be copulatiues all y be pteyned
in this v̄se Da copulatiuas. whiche be disūctiues: all y
be pteyned in this v̄se. Da disūctiuas. whiche be expleti
ues: all y be pteyned in this v̄se. Da expletiuas. wiche be
causale: all y be pteyned in this v̄se. Da causales. whiche
be ratyonal: all y be pteyned in this v̄se Da rationales

Qw know ye a ppositiō: for he is sette before other
ptes of reason in ppositiō or in xpositiō how ma
ny thynges lōge to a ppositiō: o. whiche on: case only &
whot case seruieth a ppositiō: n. whiche. ij: an accusatyf
a ablatyf. whiche seruieth to the accusatyf all y be cōte
ned in this v̄se. Da ppositiones casus acci. whiche seru
to the ablatyf: all y be cōteyned in this v̄se. Da ppositi
nes casus ablati. And all tho y be cōteyned in this v̄se &
vtriūsq. serue to the pmo bothe

Qw know ye an r̄iectiō for it betokene

indignatye. How many accordes of grammer ben ther?
v. whiche. v. the fyist bytween the nominatyf case & the u
be. the seconde between the adiectyue & the substātyf. the
thryde betwene y relatyfe & antecedens. the fourthe be
twene the partatyfe or distributyue & the genityf case fo
lowynge. the fyfth bytweene the superlatyfe degree & ge
nityf case. In how many shal the nominatyf & the verbe
accorde: in two. whiche two: nombre & psonne. The adiec
tyf & substātyf in. iij. whiche. iij. case gener and nōbie. In
how many shal the relatyf & y antecedēs accorde: in. iij.
whiche. iij. gener nōbie & in psonne. In how many shal y
nōwn pratyf or distributyf & the genityf case folowynge
in one. whiche one: gener only. In how many shal y sup
latyfe degree & the genityfe case folowynge in one. whiche
one: in gener only

Here endeth the shoute Accedeuce
